reservation in Central Educational Institutions;

(b) whether the Commission has submitted any report to Government; and

(c) if so, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING (SHRI M.V. RAJASEKHARAN): (a) National Knowledge Commission issued the following statement on reservation in Central Educational Institutions, through a press release, at Bangalore on 8th May, 2006:—

"The National Knowledge Commission firmly believes that a knowledge society must be a socially inclusive society, and this social inclusion must be reflected in the educational institutions, Historically we have used the instrument of reservations to achieve this goal. For central institutions this reservation is currently at 22.5% for SCs/STs. This is a historic opportunity to craft more effective policies to make educational institutions more socially inclusive. But how we go about doing this in a way that is compatible with the goals of a knowledge society is a difficult task and requires more social debate and careful thought. On the issue of proposed new measures, there is a difference of opinion within the Commission. Six of the eight Members feel that until such time as we have explored new and more effective avenues of affirmative action, the *status quo* should be maintained and reservations should not be extended as proposed. Two Members disagree with the above view: Dr. Jayati Ghosh supports the extension of reservations, and Dr. P.M. Bhargava supports the extension of reservations, subject to certain conditions."

(b) No, Sir.

(c) Does not arise.
